CALIFORNIA BUILDING STANDARDS COMMISSION
2525 NATOMAS PARK DRIVE, SUITE 130
SACRAMENTO, CA 95833
ATTN: DAVE WALLS, EXECUTIVE DIRECTOR

DEAR MR. WALLS

I STRONGLY OBJECT TO THE REMOVAL OF THE RESTRICTION OF THE USE OF PVC AND ABS PIPES AND FITTINGS IN TREATMENT CENTERS AND HOSPITALS.

BURNING PLASTIC CAN SPREAD FIRE, CAST IRON PIPE DOES NOT BURN OR CREATE TOXIC FUMES.

CAST IRON IS MADE FROM 100% RECYCLED SCRAP IRON. PLASTIC IS NOT RECYCLABLE.

IN A FIRE TOXIC FUMES FROM BURNING PLASTIC WOULD MAKE MANY PEOPLE VERY SICK FROM THE FUMES.

PROTECTING PUBLIC SAFETY SHOULD BE THE MAIN CONCERN OF THE CALIFORNIA BUILDING STANDARDS COMMISSION.

BEST REGARDS.
