Dear Mr. Walls,

I object To The Remobal of the use of PVC And Abs Pipes And Fittings is hospitals, nursing facilities, And Correctional Treatment Centers.

PVC and ABS are Combustible. In a Fire The Toxic Fumes from burning Plastic, would Treaten Public Safty. Additionally, burning Plastic Can Spread fir quickly. In Comparision, Cast Iron Does not burn or Create Toxic fumes.

Cast Iron Pipe and fittings are made from 100% Post Consumer resycled Scrap Iron. Plastic is made from virgin resins And is not Recyclable.

Protecting Public Safety And The enviroment Should be The overriding Concern of The California Building Standars Commission.--

Please Do Not Remove The Restriction
Of The use of PVC And ABS.

Regards,

Sincerily:

Cecilio Lopez Ruiz And Family
