MINUTES
State Allocation Board
March 23, 2011

Upon notice duly given, the monthly meeting of the State Allocation Board was held at the California Department of Education, 1430 N Street, Room 1101, in Sacramento, California on March 23, 2011 at 4:00 p.m.

Members of the Board present were as follows:

- Pedro Reyes, Chief Deputy Director, Policy, Department of Finance, designated representative for Ana Matosantos, Director, Department of Finance (DOF)
- Scott Harvey, Acting Director, Department of General Services (DGS)
- Kathleen Moore, Director, School Facilities Planning Division, California Department of Education (CDE), designated representative for Tom Torlakson, Superintendent of Public Instruction
- Senator Alan Lowenthal
- Senator Loni Hancock
- Assembly Member Julia Brownley
- Assembly Member Joan Buchanan
- Assembly Member Curt Hagman

Members of the Board absent were as follows:

- Senator Bob Huff
- Lyn Greene, appointee of Arnold Schwarzenegger, Former Governor of the State of California

Representative of the State Allocation Board (SAB) was as follows:

Lisa Silverman, Acting Executive Officer

Representatives of the Department of General Services, Office of Public School Construction (OPSC), were as follows:

Lisa Silverman, Acting Executive Officer
Juan Mireles, Policy Manager, Program Services

Representative of the Department of General Services, Office of Legal Services, was as follows:

Lance Davis, Staff Counsel

With a quorum present, Mr. Reyes, Chair, called the meeting to order at 4:07 p.m.

PRIOR MINUTES

A motion was made, and carried, to approve the Minutes for the February 2011 SAB meeting. However, Senator Hancock requested that her interpretation of the Chair's comments (Ms. Jeannie Oropeza) from the January 2011 SAB meeting be reflected for the record as follows:

> "Acting Chair, Ms. Oropeza, requested the deferral of the election for the Chair and Vice-Chair positions until the February SAB meeting when the new DOF designee could be present."

EXECUTIVE OFFICER'S STATEMENT

Update on Results of December Priority in Funding Apportionments

The OPSC was pleased to report on the final results of the December State apportionments made from the October 2010 Priority Funding Round. Of the 442 projects that received an apportionment, totaling $1.437 billion, the OPSC received over $1.436 billion in fund release requests, representing 441 projects. The result was a 99.93 percent success rate for the first phase of this priority funding round.

EXECUTIVE OFFICER'S STATEMENT (cont.)

Update on Fund Releases for January and February Priority in Funding Apportionments

Of the 26 State apportionments (totaling approximately $103.6 million) made in January 2011, the OPSC received 12 fund release requests totaling approximately $100.8 million. To date, the OPSC released approximately $64.7 million. As a reminder, the last day to submit a fund release for the January Priorities in Funding items is April 26, 2011. Of the 20 State apportionments (totaling approximately $87.9 million) made in February 2011, the OPSC received eight fund release requests totaling $74.3 million. So far, the OPSC released approximately $71. 2 million, including automatic releases for design only applications. As a reminder, the last day to submit a fund release for the February Priorities in Funding items is May 23, 2011.

Process to Receive Accelerated Funding After Natural Disasters

Last month (February), the Board requested information regarding the process of receiving accelerated funding after a natural disaster. Districts that have a funding application in-house or on the unfunded approvals list, that experience a natural disaster (earthquake, fire, flooding, etc.), must submit a *School District Appeal Request* (Form SAB 189) to the OPSC. The request must include an overview of the natural disaster that occurred and the rationale for why accelerated funding is necessary. The request should also explain whether or not the work in the accelerated project directly addresses the damage caused by the natural disaster or if it is to assist with cash flow. Each request will be presented to the Board for consideration on a case-by-case basis.

In response to this topic, Mr. Harvey asked if the Form SAB 189 would be required if the Governor declares an area a disaster area? The Acting Executive Officer responded that the Form SAB 189 would be required and that it would be helpful if these particular emergencies (Governor declarations) were made part of the request so the OPSC could determine the extent of the impact to the project.

Seismic Update

The OPSC highlighted that in this Agenda for Board consideration was a request for a conceptual approval for a Seismic Mitigation Program project. The State share amount of this project was equal to approximately $14.3 million. Also included in this Agenda was an updated report on the Seismic Mitigation Program that provided details about the seismic evaluations recently completed, the balance of funds remaining from the grant provided by the California Seismic Safety Commission, and the progress of the technical program review workshop that occurred earlier this month.

State Agencies Joint Workshop – March 24, 2011

The CDE, the Division of the State Architect (DSA), and the OPSC hosted the first in a series of quarterly Joint Workshops on March 24, 2011 from 9am-1pm in the Ziggurat Auditorium at 707 Third Street, West Sacramento. The workshop was an opportunity for the State agencies to engage with their customers and stakeholders on topics of importance regarding the standard project approval process. As of March 22nd, 52 participants had registered to attend the workshop in person, in addition to a number of participants who viewed the event via webcast. Registration and webcast information was available on the OPSC's website.

The Acting Executive Officer informed the Board that the Priorities in School Construction Funding/Cash Management Sub-Committee hearing was scheduled for Tuesday, April 12, 2011, beginning at 3:00 p.m. to 5:00 p.m. at a location to be determined. She noted the importance of providing stakeholders another opportunity to provide input on the issues set for this venue.

CONSENT ITEMS

The Board approved the Consent calendar as presented, with the exception of the Lynwood Unified School District consent item (page 56). Senator Lowenthal was concerned that the District was not in agreement with the staff recommendations and asked that this item be pulled from the Agenda, the District be contacted, and the item be agendized for the April 2011 SAB meeting. Ms. Moore recused herself from voting on the Elk Grove Unified School District consent item only, but voted to approve all other consent items.

FINANCIAL REPORTS

Status of Fund Releases

The Acting Executive Officer presented this item to the Board. Ms. Moore questioned that if districts did not come in by the April and May deadlines, would the funds revert back to available cash in order to continue to fund down the Unfunded List? The Acting Executive Officer responded that the funds would revert back to the program and be made available for the next funding round. The Board accepted the Status of Fund Releases report as presented.

Status of Funds

The Acting Executive Officer presented this item to the Board. Mr. Harvey commented on the importance of providing outreach to school districts that may qualify for funding under the Overcrowding Relief Grant (ORG) Program. The Acting Executive Officer replied that staff would highlight at the joint workshop the opportunities available under the ORG and simultaneously stimulate interest when staff presents the series of Webinars, one of which focuses on Funding Opportunities. The Board accepted the Status of Funds report as presented.

ACTION ITEMS

Cuyama Joint Unified/Santa Barbara 58/75010-00-001

Mr. Juan Mireles, representing the SAB staff, presented this item to the Board. A motion was made, and carried, to approve the staff's recommendations, which included, but is not limited to, an unfunded approval in the amount of $279,954 for a rehabilitation project to replace the well at the Cuyama Elementary School.

West Contra Costa Unified/Contra Costa 51/61796-02-001

Mr. Dave Zian, representing the SAB staff, presented this item to the Board. Mr. Zian gave a brief overview of the issues surrounding the District's request for conceptual approval for the replacement of the main building at the Portola Middle School, pursuant to the Seismic Mitigation Program under the School Facility Program (SFP) Facility Hardship regulations. Mr. Zian further indicated that the District was requesting to construct the replacement Portola main building at the Castro Elementary School site, which is a district-owned site but a closed school site. A motion was made, and carried, to approve the staff's recommendations, which included, but is not limited to, the following: 1) abandonment and replacement of the existing main building at the Portola Junior High School site; and 2) the construction of the replacement main building (from the Portola site) at the Castro Elementary School site. The SAB also recognized that the District would not request site acquisition funding for the Castro School site since it is a district-owned site. Further, this approval provides that if the District sells the existing Portola Junior High School site, it is required to sell the site and facilities at fair market value and remit 50 percent of the proceeds to the State.

Cash Management System

This item was withdrawn.

Seismic Mitigation Funding Program

Mr. Dave Zian, representing the SAB staff, presented this item to the Board. Mr. Zian outlined that the California Seismic Safety Commission provided a grant in the amount of $200,000 to the OPSC to enter into contracts with seismic engineering contractors for the development of a uniform seismic evaluation template. Seismic engineering contractors were to use this uniform template out in the field to evaluate the ability of school districts to qualify for participation in the Seismic Mitigation Program. The OPSC surveyed school districts that were on a list developed by the DSA as most vulnerable. Of those surveyed, nine school districts underwent seismic engineering evaluations using the new template. In those nine school districts, 20 buildings were potentially eligible. The California Seismic Safety Commission met on March 10, 2011 where the OPSC reported the new template findings and also reported that $77,000 remains unspent from the original $200,000 grant after all the final billings have been paid.

Seismic Mitigation Funding Program (cont.)

The OPSC sought approval from the California Seismic Safety Commission to retain the remaining funds for future outreach as there may be other school buildings that could potentially be identified in the future. The request was granted. It was also noted that the Seismic Mitigation Program workshop convened with representatives from the Legislature, California Seismic Safety Commission, DSA, OPSC, Cal-EMA, and the DOF, in which discussions included current methodology, determining seismic risks, and the California model (the current Seismic Mitigation Program) vs. the Oregon model, which utilizes a Federal FEMA model numerical rating. In considering this Item, the SAB acknowledged the report. A motion was made, and seconded, to establish a new sub-committee, which will be known as the "Seismic Mitigation Sub-Committee." The members assigned to this new sub-Committee are: Scott Harvey, who will be the Chair, Assembly Member Joan Buchanan, and Ms. Kathleen Moore. In addition, the SAB requested that final recommendations come back to the full SAB in May 2011, relating to perhaps new building types and the lowering of the spectral response acceleration threshold or the ground shaking intensity (currently set at 1.68 g).

State Allocation Board Rules and Procedures Sub-Committee

Ms. Barbara Kampmeinert, representing the SAB staff, presented this item to the Board. Ms. Kampmeinert provided an overview of the general concept for the appeals process discussed at the February 2011 SAB Rules and Procedures Sub-Committee hearing. It was stated that the Sub-Committee adopted Option #1, which provided a general plan for the appeals process; the first step being that upon reaching this agreement with OPSC, a district would submit the Form SAB 189 to formally start the appeals process. The timeline for appeals to come before the Board would be 90 to 120 days unless the appeal was related to a health and safety issue in which case the timeline would be shortened to 60 to 90 days. Also, within five working days of receiving the appeal, the OPSC would respond in writing to the school district acknowledging receipt of the appeal and providing the date that the item would be placed on the SAB three-month workload. Requests for postponement may be made by the school district or the OPSC, but must be submitted in writing to the Chair and the Vice-Chair of the SAB no later than five working days prior to the SAB meeting. In addition, the Sub-Committee requested that an appeal timeline that fits within that 90 to 120 days be developed by the OPSC. Concerns were raised by several Board members regarding requests for postponement being submitted in writing to the Chair and the Vice-Chair no later than five working days prior to the SAB meeting. The main focus of the concern was that this timeframe did not allow school districts time to review the Board item and submit a letter requesting postponement five days prior to the SAB meeting. The Board requested staff review the language and timeline for further clarity.

Public Comments

- Mr. Tom Duffy, representing the Coalition for Adequate School Housing (CASH) organization, addressed the Board in support of re-reviewing the timeline provided by staff to ensure school districts are given ample time to respond to staff's position.

- Ms. Anna Ferrara, representing the County School Facilities Consortium, addressed the Board and asked that an alternate form of delivering communications (i.e., electronic) be considered rather than the hard copy mailing through the U.S. Postal Service, which may not always be the most reliable.

The Board put this item over for one month (to the April 2011 SAB meeting).

Additional Grant for General Site Development

Mr. Juan Mireles, representing the SAB staff, presented this item to the Board. Mr. Mireles provided a brief synopsis of the general site development regulations. He stated that the regulations are currently going through the public comment period and that the OPSC anticipates a decision in early May 2011 by the Office of Administrative Law. He indicated that a time period is created, between January and May 2011, that the OPSC may receive applications requesting the general site development grant. It was noted that staff provided three options for the Board to consider: Option #1 – process applications without the general site development grant and amend the projects after the regulations have become effective; Option #2 – request school districts to withdraw and resubmit applications requesting the general site development grant once the regulations are in effect; and Option #3 – hold any applications received until the regulations are in effect.

Additional Grant for General Site Development (cont.)

A motion was made, and carried, to approve staff's Option #1, which would allow staff to process applications without the general site development grant and bring the eligible projects back to the SAB to receive the additional grant once the regulations have become effective.

Public Comment

Mr. Tom Duffy, representing the CASH organization, addressed the Board in support of staff's Option #1 and requested that the Board agendize for discussion at a future SAB meeting to permanently include the general site development grant allowance as part of the SFP.

REPORTS, DISCUSSION, AND INFORMATION ITEMS

SAB Three-Month Projected Workload

State Allocation Board Meeting Dates for the 2011 Calendar Year

School Facility Program Unfunded List as of February 23, 2010

School Facility Program Workload List of Applications Received Through March 11, 2011

Emergency Repair Program Unfunded List as of February 23, 2011

Emergency Repair Program Workload List of Applications Received Through February 23, 2011

Facility Hardship/Rehabilitation Approvals Without Funding as of February 23, 2011

CLOSED SESSION

At 5:10 p.m. and in accordance with Government Code Section 11126(a)(1), the Board convened into closed session to discuss issues relating to personnel matters. At 5:43 p.m., the Chair announced that the closed session was over and the Board reconvened into public session. The Chair reported to the audience and public that the Assistant Executive Officer's position was discussed and that the SAB members were to review the Assistant Executive Officer's duty statement, provide written input as to what the duty statement will be, and send the comments to the Chair of the SAB Personnel Sub-Committee.

MISCELLANEOUS

- Ms. Moore requested that the Project Information Worksheet be placed on the SAB Three-Month Projected Workload list at the discretion of the Chair for future consideration.
- Mr. Harvey requested that the Seismic item be brought back to a future SAB meeting.

ADJOURNMENT

There being no further business to come before the Board, the Chair adjourned the meeting at 5:44 p.m.

LISA SILVERMAN, Acting Executive Officer
