Dear Dave,

I am a foundry man in Oakland CA. We make Cast Iron Pipe and fittings. With the burst of the housing market we are hurting as a company and a family. The shift in regulations will directly afect me, my co-workers and our familys. Needless to say we support the restrictions of use of PVC and ADS pipe + fittings.

Im sure you already know PVC fumes are toxic and burn faster. Plus Cast Iron is 100% recycled scrap iron. Public saftey and more inportantly the enviroment should be everyones ~~[illegible]~~ concern even the California Building Standards Commission.

Please do not remove the restrictions on PVC and ADS!

~~[illegible]~~ Thanks
Paul Lapp and family
