REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, May 28, 2008

CHARTER SCHOOL FACILITIES PROGRAM PRELIMINARY APPORTIONMENTS

PURPOSE OF REPORT

To provide preliminary apportionments for the Charter School Facilities Program (CSFP) in the amount of $462,590,124.

DESCRIPTION

Proposition 1D provides the CSFP with an additional $500 million for charter school facilities. This program provides qualified applicants with a preliminary apportionment for the construction of new charter schools or the rehabilitation of existing district owned facilities that are at least 15 years old. The applications that are included on the Attachment to this agenda item underwent a thorough review process by both the California School Finance Authority (CSFA) and the Office of Public School Construction (OPSC). The applicants have been determined to be financially sound and all program requirements have been met.

AUTHORITY

Education Code (EC) Sections 17078.52 through 17078.66 and 17180.5 established the CSFP, and the 2002, 2004, and 2006 Charter School Facility Accounts. EC Section 17078.54 further authorizes the CSFA to charge its administrative costs against the Charter School Facility Account, not to exceed 2.5 percent of this account.

Pursuant to Regulation Section 1859.164, all funds approved as a preliminary apportionment are to be transferred to the Restricted Charter School Fund and any funds not approved as preliminary apportionments are to be transferred to the Unrestricted Charter School Fund.

Pursuant to Regulation Section 1859.166 and 1859.166.1, a time limit and a potential time extension are provided for the conversion of a preliminary apportionment to a final apportionment. These sections further provide that any preliminary charter school apportionments not converted will be rescinded and the funding reserved for the project will be placed back in the Unrestricted Charter School Fund.

STAFF COMMENTS

Of the $500 million made available for the program, up to 2.5 percent of this amount may be used by the CSFA for its administrative purposes. The chart below shows the distribution of the $500 million available to fund the CSFP:

Fund/Account	Amount
Total Available from Proposition 1D	$500,000,000
CSFA Administrative Cost Reservation	($12,500,000)
Total Available for Preliminary Apportionments	$487,500,000

The OPSC accepted over 90 applications by the filing deadline for a requested amount of over $2 billion. After the review process was completed, 79 applications totaling $1,513,654,236 remain eligible for consideration. The value of the eligible applications received greatly exceeds the $487.5 million available for apportionment in the Charter School Facility Account. Therefore, by law, the following must occur:

(Continued on Page Two)

STAFF COMMENTS (cont.)

- To ensure that a variety of project types are funded, the Board will apportion applications based on both preference points and funding category. Preference points for applicants are calculated based on:
  - percentage of overcrowding for the school district where the project will be located
  - percentage of low income pupils in the school district where the project will be located, any public school within the Charter School General Location, or in the existing charter school
  - whether or not the charter school is a non-profit entity, and
  - whether or not the charter school is rehabilitating district owned existing facilities

  Once the preference points have been established, the application with the highest number of points will be funded in each of the categories for regions of the State; urban, rural or suburban area type; size of the charter school; and grade levels served by the project. On the Attachment to this item, the applications are shown in rank order and the shaded projects are those that are recommended for funding.

- All funds approved as a Preliminary Charter School Apportionment in this action shall be transferred to the Restricted Charter School Fund within the appropriate Charter School Facility Account for the purpose of making final apportionments to the individual projects when the charter school or school district files a conversion application.

- Any applications the SAB is unable to provide a Preliminary Charter School Apportionment for will be returned to the Charter School applicant as there is no provision in law to establish an unfunded list for the remaining projects. The Board may consider opening additional filing periods once a sufficient amount of funds are available in the Unrestricted Charter School Fund.

The successful applicants will have four years (with a possible one-year extension) to convert the project to a Final Charter School Apportionment. Any preliminary charter school apportionments not converted within the specified time period will be rescinded and the funding reserved for the project will be placed back in the Unrestricted Charter School Fund.

RECOMMENDATIONS

1. Approve preliminary apportionments for the projects shown on the Attachment in the amount of $462,590,124.
2. Authorize the OPSC to set aside $12.5 million in funding for CSFA administrative costs.
3. Authorize the transfer of $462,590,124 to the Restricted Charter School Fund within the 2006 Charter School Facility Account.
4. Authorize the transfer of $24,909,876 to the Unrestricted Charter School Fund within the 2006 Charter School Facility Account.
5. Provide that the charter schools receiving a Preliminary Apportionment convert the project to a Final Apportionment within four years or as provided in Regulation Section 1859.166.1.

BOARD ACTION

In considering this item, the State Allocation Board approved staff's recommendations. In addition, the Board requested staff to monitor the seven charter school projects for which the applicant reduced the project costs in order to be financially sound.
