* The graphic breaks down the number of facility component types constructed including square footages for 237 new construction projects from Proposition 1D utilizing PIW data. This represents 89 percent of the projects apportioned from Proposition 1D during this time. The remaining 11 percent of projects did not yet require a PIW at the time this data was compiled. The facilities and square feet were assigned based on the proposition for which they received the full construction apportionment. For example, projects may have received a design apportionment from another proposition.

** Other includes (but is not limited to) facilities such as staff rooms, conference rooms and resource rooms.
