School Facility Program
Gross Construction Expenditures by School Facility Program Service Region

The graphic below displays the gross construction expenditures ($16,910.1 million) for 976 School Facility Program new construction projects apportioned from January 2008 through JUNE 2016 and for which a Project Information Worksheet (PIW) was submitted.* The data includes the state funding, required district match, and any additional district funding.

* The submittal of a PIW is required at three times for a new construction project: 1) the full grant fund release; 2) the first annual expenditure report (one year following the fund release); and 3) the final expenditure report (when the project is deemed complete). This graphic does not include any apportioned project for which a fund release was not submitted when the data was compiled.

Permanent Construction by School Facility Program Service Region
(in millions)

The graphic displays the permanent square footage construction versus the total square footage construction (which includes modular and portable construction) for 976 new construction projects apportioned from January 2008 through June 2016 and for which a Project Information Worksheet (PIW) was submitted.*

* The submittal of a PIW is required at three times for a new construction project: 1) the full grant fund release; 2) the first annual expenditure report (one year following the fund release); and 3) the final expenditure report (when the project is deemed complete). This graphic does not include any apportioned project for which a fund release was not submitted when the data was compiled. The 976 projects include 168 financial hardship apportionments at the final adjusted grant funding stage.
