

**REVISION RECORD
FOR THE STATE OF CALIFORNIA
ERRATA
February 2, 2005
2004 Title 24, Part 3, California Electrical Code**

PLEASE NOTE: The date of these errata is for identification purposes only. See the History Note Appendix for the adoption and effective dates of the errata.

It is suggested that the section number, as well as the page number be checked when inserting this material and removing the superceded material. In case of doubt, rely on the section numbers rather than the page numbers because the section numbers must run consecutively.

It is further suggested that the superceded material be retained with this revision record sheet so that the prior wording of any section can be easily ascertained. Please keep the removed pages with this revision page for future reference.

NOTE

Due to the fact that the application date for a building permit establishes the California Building Standards Code provisions that are effective at the local level, which apply to the plans, specifications, and construction for that permit, it is strongly recommended that the removed pages be retained for historical reference.
