- a) **Division of State Architect Structural Safety (DSA/SS EF 02/10)** proposed changes to the administrative regulations in the California Administrative Code, Title 24, Part 1, Chapter 4 regarding certification of school building projects to streamline requirements for certification of construction projects and enable DSA to address an estimated 12,000 projects that have been completed but not certified. These uncertified projects (built and completed statewide from 1982 until the present)
 - Lack certification for reasons related to documentation rather than safety of construction.
 - Represent perceived risks by the public and prevents DSA from approving any future construction or alterations involving these buildings, as DSA can not approve alterations or additions to uncertified buildings.
 - Are currently blocking approval of plans for construction-ready building projects throughout the State.

8) Report on the 2010 Codes:
