PARTICIPATION COMMENTS FOR THE NOTICE DATED MARCH 18, 2008
Written comments are to be sent to the above address.

WRITTEN COMMENT DEADLINE: MAY 12, 2008

Date: May 12, 2008

From: Randall Higa
Name (Print or type)

Southern California Edison
Agency, jurisdiction, chapter, company, association, individual, etc.

6042 North Irwindale Ave, Suite B Irwindale CA 91702
Street City State Zip

I/We (do) (do not) agree with:

The Agency proposed modifications As Submitted on Section No. All (one example is section 807.3 Daylight (CBSC)

and request that this section or reference provision be recommended:

Approved Disapproved Held for Further Study Approved as Amended

to the proposing state agency.

Suggested Revisions to the Text of the Regulations:

Write all sections in code language since this standard such that they may be used for model ordinances and adopted by local governments. In the example section 807.3 Daylight, the section should be modified to read:

807.3 Daylight. Provide daylit spaces as required for toplighting and sidelighting in the 2007 California Energy Code. In constructing a design, the following is required:

Reason: [The reason should be concise. If the request is for "Disapproval," "Further Study," or "Approve As Amend", identify at least one of the 9-point criteria (following) of Health and Safety Code §18930.]

Several sections of the standard are not written in language that can be enforced by a jurisdiction. Since this standard should be used as a model ordinance, it needs to be written in code language since it would have to be enforced by building officials in jurisdiction that adopt this standard as a local ordinance.

HEALTH & SAFETY CODE SECTION 18930

SECTION 18930. APPROVAL OR ADOPTION OF BUILDING STANDARDS; ANALYSIS AND CRITERIA; REVIEW CONSIDERATIONS; FACTUAL DETERMINATIONS

- (a) Any building standard adopted or proposed by state agencies shall be submitted to, and approved or adopted by, the California Building Standards Commission prior to codification. Prior to submission to the commission, building standards shall be adopted in compliance with the procedures specified in Article 5 (commencing with Section 11346) of Chapter 3.5 of Part 1 of Division 3 of Title 2 of the Government Code. Building standards adopted by state agencies and submitted to the commission for approval shall be accompanied by an analysis written by the adopting agency or state agency that proposes the building standards which shall, to the satisfaction of the commission, justify the approval thereof in terms of the following criteria:
- (1) The proposed building standards do not conflict with, overlap, or duplicate other building standards.
 - (2) The proposed building standard is within the parameters established by enabling legislation and is not expressly within the exclusive jurisdiction of another agency.
 - (3) The public interest requires the adoption of the building standards.
 - (4) The proposed building standard is not unreasonable, arbitrary, unfair, or capricious, in whole or in part.
 - (5) The cost to the public is reasonable, based on the overall benefit to be derived from the building standards.
 - (6) The proposed building standard is not unnecessarily ambiguous or vague, in whole or in part.
 - (7) The applicable national specifications, published standards, and model codes have been incorporated therein as provided in this part, where appropriate.
 - (A) If a national specification, published standard, or model code does not adequately address the goals of the state agency, a statement defining the inadequacy shall accompany the proposed building standard when submitted to the commission.
 - (B) If there is no national specification, published standard, or model code that is relevant to the proposed building standard, the state agency shall prepare a statement informing the commission and submit that statement with the proposed building standard.
 - (8) The format of the proposed building standards is consistent with that adopted by the commission.
 - (9) The proposed building standard, if it promotes fire and panic safety as determined by the State Fire Marshal, has the written approval of the State Fire Marshal.
