CALIFORNIA BUILDING
STANDARDS COMMISSION

July 2, 2014

California Building Standards Commission
2525 Natomas Park Drive, Suite 130
Sacramento, CA 95833

To whom it may concern,

I hereby transmit a copy of the City of Brisbane's Ordinance No. 583, amending our Building and Construction Code.

Please note that the required findings are included in the ordinance.

Sincerely,

Sheri Marie Spediacci
City Clerk

ORDINANCE NO. 583

AN ORDINANCE OF THE CITY OF BRISBANE AMENDING CHAPTER 15.04, ADOPTION OF CONSTRUCTION CODES, CHAPTER 15.08, ORGANIZATION AND ENFORCEMENT, AND CHAPTER 15.44, FIRE PREVENTION CODE, AND REPEALING CHAPTER 15.41, ABATEMENT OF DANGEROUS BUILDINGS CODE IN TITLE 15, BUILDINGS AND CONSTRUCTION, OF THE MUNICIPAL CODE

The City Council of the City of Brisbane hereby ordains as follows:

SECTION 1: The City Council finds and determines as follows:

A. Certain hillside areas of the City are characterized by heavy vegetation and close proximity of structures to the vegetation and to each other. These areas contain narrow, winding streets, with steep grades and congested parking and traffic, making access difficult for fire apparatus and equipments in the event of emergency. Numerous dwellings located within the upper hillsides can only be reached by means of private access ways which may not be adequately constructed or maintained for access by Fire Department vehicles.

B. There are several natural conditions that affect the risk of fire damage within the City, including the following:

1. Brisbane is located near the San Andreas Fault and is subject to seismic activity that could potentially ignite fires throughout the City.
2. Brisbane regularly experiences strong winds, with average velocities ranging from approximately 15 to 25 miles per hour and reaching high velocities of 50 miles per hour. These winds may significantly contribute to the spread of fire and will increase the difficulty of fire suppression work.
3. The hillside areas of the City are constructed on the east slope of San Bruno Mountain, immediately adjacent to a protected habitat conservation area which is subject to wildland fires. During recent years, several wildland fires have threatened the safety of persons and property located near these areas.

C. By reason of the foregoing climatic, geographical, topographical, and community conditions, it is necessary to adopt certain local amendments to the California Fire Code in order to provide a high level of fire and life safety for all persons who live and work within the City of Brisbane and to adequately protect both public and private property within the City.

SECTION 2: Section 15.04.010 of Chapter 15.04, Adoption of Construction Codes, is amended to read as follows:

15.04.010 - Purpose and authority.

The purpose of this chapter is to adopt by reference the 2013 edition of the California Building Standards Code, Title 24 of the California Code of Regulations. This chapter is also adopted to provide minimum requirements and standards for the protection of the public safety, health, property and welfare of the city of Brisbane. This chapter is adopted under the authority of Government Code Section 38660 and Subsection 50022.2 and Health and Safety Code Section 18941.5.

SECTION 3: Section 15.04.040 of Chapter 15.04, Adoption of Construction Codes, is amended to read as follows:

15.04.040 - Adoption of Construction Codes

Title 24 of the California Code of Regulations, 2013 Edition of the California Building Standards Code, is hereby adopted by reference and incorporated in this code, including the following parts:

- A. 2013 California Administrative Code, Title 24, Part 1.
- B. 2013 California Building Code, Volumes 1 and 2, based on the 2012 International Building Code (ICC), Title 24, Part 2, including Appendix Chapters G – Flood Construction and H - Signs.
- C. 2013 California Residential Code, based on the 2012 Edition International Residential Code (ICC), Title 24, Part 2.5, including Appendix Chapters E – Manufactured Homes, G – Swimming Pools and Hot Tubs, H – Patio Covers, and J – Existing Buildings and Structures.
- D. 2013 California Electrical Code, based on the 2011 Edition National Electric Code as published by the National Fire Protection Association (NFPA), Title 24, Part 3.
- E. 2013 California Mechanical Code, based on the 2012 Uniform Mechanical Code as published by the International Association of Plumbing and Mechanical Officials (IAPMO), including all appendix chapters, Title 24, Part 4.
- F. 2013 California Plumbing Code, based upon the 2009 Uniform Plumbing Code as published by the International Association of Plumbing and Mechanical Officials (IAPMO), including all appendix chapters, Title 24, Part 5.
- G. 2013 California Energy Code, Title 24, Part 6.
- H. 2013 California Historical Building Code, Title 24, Part 8.

I. For adoption of the 2013 California Fire Code, Title 24, Part 9, and modifications thereof, see Chapter 15.44 of this title.

J. 2013 California Green Building Standards Code, Title 24, Part 11.

K. 2013 California Referenced Standards Code, Title 24, Part 12.

In addition, the 2012 International Property Maintenance Code is hereby adopted by reference and incorporated in this code.

SECTION 4: Section 15.08.010 of Chapter 15.08, Organization and Enforcement, is amended to read as follows:

15.08.010 – Building official—Defined.

The term "building official" refers to the city manager of the city and his/her designated representative. The city manager, with the approval of the city council, may provide for building inspection services to be performed by contract with the County of San Mateo or other public or private agency. Whenever this code or the construction codes use the terms "administrative authority," "responsible official," "chief inspector," "code official" or "code enforcement officer" they shall mean the "building official" as defined in this section.

SECTION 5: Section 15.08.140 of Chapter 15.08, Organization and Enforcement, is amended to read as follows:

15.08.140 - Additions or alterations in excess of fifty percent of floor area.

A. When additions or alterations to a lawfully constructed building or structure which are made within any five (5) year period exceed fifty percent (50%) of the floor area of the pre-existing building or structure, as determined by the building official, then except as otherwise provided in subsection C of this section, the pre-existing building or structure shall be brought into conformity with such of the standards for new construction as the building official may determine to be necessary or appropriate to eliminate existing health or safety hazards, including, but not limited to, defects in structural integrity, defective or inadequate electrical installations, defective or inadequate fire sprinkler, sanitary sewer or storm drainage facilities, and substandard street access to the property.

B. For the purposes of making the determinations required by subsection A of this section, the following definitions, rules of interpretation, and procedures shall be applied:

1. Additions or alterations performed at different periods of time shall be considered to have been made within a five (5) years period if any building permits are issued or any work is commenced within five (5) years following the date of completion of any earlier work on the same building or structure. The date of completion shall normally be established as the date on which final inspection approval of the earlier work is granted by the city.

2. For the purposes of this section, the "floor area" of a building or structure shall mean the sum of the gross horizontal areas of all floors of a building or structure measured from the interior face of the exterior walls, but excluding each of the following:

- a. Any area where the floor to ceiling height is less than six (6) feet; or
- b. Any detached garage or other detached accessory structure which does not constitute habitable space; or
- c. Any attached carport or covered deck.

3. The area of any additions or alterations not exceeding a cumulative total of four hundred (400) square feet, permitted to be made under the provisions of Section 17.34.110 of this title, shall not be subject to the provisions of this section.

4. The "standards for new construction" shall mean: (a) the requirements of the buildings code adopted by this Title 15; and (b) the storm water management and discharge requirements established by Chapter 13.06 of this code; and (c) the standard specifications and street standards adopted by Section 12.24.010 of this code.

5. Alterations, renovations or repairs which do not essentially change the original size, configuration, and habitable floor area of the building or structure or basic uses of the rooms within the building or structure, as determined by the building official, shall not be considered as additions or alterations subject to the provisions of this section. Additionally, work involving exterior surfaces, such as the replacement of roofing or siding, or the addition or replacement of windows or doors, or the addition of a porch or deck shall not be considered alterations subject to the provisions of this ordinance.

C. Where an existing building or structure is required by this section to be brought into conformity with the standards for new construction, the building official shall have authority in individual cases to grant modifications of any such requirements, if the building official is able to find and determine that:

1. Compliance with the requirement will cause practical difficulties or unreasonable hardship; and
2. The modification does not reduce any requirements for fire protection or any requirements relating to structural support and integrity; and
3. The modification does not create any new or increased hazard to the health or safety of the occupants of the existing building or structure.

D. This section is intended to establish requirements which are in addition to, and not in replacement of, any other ordinance, rule, regulation, or policy of the city

which may be applicable to the proposed development project, including any of the uniform codes adopted by this title and include also any policy adopted in the Brisbane general plan.

E. Where the requirements of subsection A of this section are not applicable because the additions or alterations do not exceed fifty percent (50%) of the floor area of the pre-existing building or structure, the proposed development shall nevertheless comply with the requirements of Section 17.01.060 of the zoning ordinance unless: (1) the pre-existing building or structure is located upon a lot of record, as such term is defined in Chapter 17.02 of the zoning ordinance, and (2) a public street abutting such lot of record provides the principal means of access to that lot.

SECTION 6: Section 15.08.200 of Chapter 15.08, Organization and Enforcement, is repealed in its entirety.

SECTION 7: Section 15.08.220 of Chapter 15.08, Organization and Enforcement, is repealed in its entirety.

SECTION 8: Section 15.08.230 of Chapter 15.08, Organization and Enforcement, is repealed in its entirety.

SECTION 9: Section 15.08.240 of Chapter 15.08, Organization and Enforcement, is repealed in its entirety.

SECTION 10: Section 15.08.250 of Chapter 15.08, Organization and Enforcement, is repealed in its entirety.

SECTION 11: Section 15.08.260 of Chapter 15.08, Organization and Enforcement, is repealed in its entirety.

SECTION 12: Section 15.08.270 of Chapter 15.08, Organization and Enforcement, is repealed in its entirety.

SECTION 13: Chapter 15.41, Abatement of Dangerous Buildings Code, is repealed in its entirety.

SECTION 14: Section 15.44.010 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.010 - Adoption of fire prevention code.

The fire prevention code for the city of Brisbane shall be the 2012 Edition of the International Fire Code and the 2013 Edition of the California Fire Code, including Appendices B, C, D, and F (hereinafter referred to as the "Fire Code"), as promulgated by the International Code Council, and the same is hereby adopted and incorporated herein by reference, subject to the modifications as contained in this Chapter 15.44. Two (2) copies of the Fire Code have been filed for use and examination by the public, one copy

being located at Brisbane City Hall and the other copy being located at the Fire Administration office.

SECTION 15: Section 15.44.040 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.040 – Section 105.7.17 added—Permit fees.

Section 105.7.17 is added to the Fire Code, to read as follows:

1205.7.1.17 Permit fees. The Fire Department shall be authorized to charge such fees and costs for services performed pursuant to the Fire Code as may be established from time to time by ordinance or resolution of the City Council.

SECTION 16: Section 15.44.080 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.080 - Section 903 amended—Automatic sprinkler systems.

Section 903 of the Fire Code is amended in its entirety to read as follows:

903 Automatic fire extinguishing systems.

(a) Notwithstanding any other provisions of this Code or any other code or ordinance of the City of Brisbane, automatic fire sprinkler systems, approved by the Fire Marshall, shall be installed in the following buildings and structures that are classified as new construction:

1. For all occupancies except R-3 occupancies: Any new building or structure, regardless of size, except stand alone, uninhabitable buildings, garages and sheds having a floor area of less than 400 square feet.
2. For all R-3 occupancies: Any new single-family or duplex structure, excluding any detached accessory structure that does not constitute habitable space having a floor area of less than 400 square feet.

(b) When additions or alterations made to an existing building fall within the requirements under Brisbane Municipal Code Section 15.08.140, an automatic fire sprinkler system shall be provided for the entire building.

(c) Where automatic fire sprinkler systems are required to be installed, the following additional requirements shall also be satisfied, as applicable:

1. A minimum of three (3) copies of plans and specifications for automatic sprinkler installations, plus water supply calculations,

shall be provided to the Fire Department for review and approval prior to commencement of the installation work.

2. All required automatic sprinkler systems shall be approved by the Fire Department.
3. All acceptance tests and such periodic tests as required by the Fire Marshall or pursuant to NFPA Pamphlets No. 13, 13D, 13R and/or Subchapter 5, Title 19, California Code of Regulations, shall be conducted and, where applicable, witnessed by a representative of the Fire Department.
4. An approved exterior visual fire alarm device may be required for buildings that have numerous fire department connections (FDC's). Type and locations will be determined by the Fire Department. Such visual alarm devices are not to replace the exterior audible device, but to assist fire suppression personnel as to location(s) of systems which require pumping operations.

SECTION 17: Section 15.44.090 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.090 - Section 5608.1 amended—Fireworks display.

Section 5608.1 of the Fire Code is amended by adding the following paragraph to the end of the first paragraph:

The possession, storage, sale, use or discharge of California State Fire Marshal approved "safe and sane" fireworks is prohibited within the City of Brisbane.

SECTION 18: Section 15.44.100 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.100 - Section 904.2 amended—Where required.

Section 904.2 of the Fire Code is amended by adding the following subsection after Subsection 904.2.1 Commercial hood and duct systems:

904.2.2 Floor markings. The location(s) of all cooking appliances that are protected by an approved automatic fire extinguishing system shall be permanently identified either by a wall mounted "approved" appliance floor plan or marked on the floor in a manner approved by the Fire Marshal.

SECTION 19: Section 15.44.110 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.110 - Section 907.8.1 amended—Maintenance required.

Section 907.8.1 of the Fire Code is amended by adding the following paragraph at the end of said section:

Owners and operators of group R-1 occupancies shall provide documentation to the Fire Department, such as annual inspection forms, which confirm that all smoke detection devices and equipment within apartment units are installed and are in good operating condition.

SECTION 20: Section 15.44.130 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.130 - Section 706 added—Roof coverings.

Section 706 is added to the Fire Code, to read as follows:

706 Roof coverings. Roof coverings on all buildings shall be fire retardant non-wood materials and shall comply with the standards of the California Building Code, Class A or B, prepared or built-up roofing. Re-roofing of existing buildings which occurs within any twelve (12) month period shall comply with the foregoing requirement if the re-roofing involves fifty percent (50%) or more of the roof area in the case of a non-wood roof or ten percent (10%) or more of the roof area in the case of a wood roof.

SECTION 21: Section 15.44.140 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.140 - Section 5301.1 amended—Scope.

Section 5301.1 of the Fire Code is amended by adding the following paragraph at the end of the first paragraph:

The storage of compressed natural gas is prohibited in all areas of the City except for the following subareas as identified in the General Plan for the City of Brisbane: Northeast Bayshore, Southeast Bayshore, Crocker Park, Beatty, and the Baylands when the storage container or tank is located at least 200 (two hundred) feet from the closest property line of a property occupied by a residence or school. Notwithstanding the foregoing, the Fire Marshal may grant a permit for storage of compressed natural gas in other areas of the City if the Fire Marshal determines, in each case, that the storage is required for the conduct of a lawful use upon the property, will not constitute a safety hazard, and will otherwise comply with all applicable provisions of this Code and all other ordinances, rules and regulations of the City. The Fire Marshal may impose such conditions and requirements upon the issuance of the permit as the Fire Marshal deems necessary or appropriate.

SECTION 22: Section 15.44.150 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.150 - Section 5601 amended—General.

Section 5601 of the Fire Code is amended by adding the following subsection:

5601.2 Storage of explosives and blasting agents. The storage of explosives and blasting agents is prohibited in all areas of the City, except that the Fire Marshal may grant a permit to allow such storage if the Fire Marshal determines, in each case, that the storage is required for the conduct of a lawful use upon the property, will not constitute a safety hazard, and will otherwise comply with all applicable provisions of this Code and all other ordinances, rules and regulations of the City. The Fire Marshal may impose such conditions and requirements upon the issuance of the permit as the Fire Marshal deems necessary or appropriate.

SECTION 23: Section 15.44.160 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.160 - Section 5704.1 amended—General.

Section 5704.1 of the Fire Code is amended by adding the following paragraph at the end of said section:

The storage of flammable or combustible liquids in outside aboveground tanks is prohibited in all areas of the City except for the following subareas as identified in the General Plan for the City of Brisbane: Northeast Bayshore, Southeast Bayshore, Crocker Park, Beatty, and the Baylands when the storage container or tank is located at least 200 (two hundred) feet from the closest property line of a property occupied by a residence or school. Notwithstanding the foregoing, the Fire Marshal may grant a permit for such storage in other areas of the City if the Fire Marshal determines, in each case, that the storage is required for the conduct of a lawful use upon the property, will not constitute a safety hazard, and will otherwise comply with all applicable provisions of this Code and all other ordinances, rules and regulations of the City. The Fire Marshal may impose such conditions and requirements upon the issuance of the permit as the Fire Marshal deems necessary or appropriate.

SECTION 24: Section 15.44.170 of Chapter 15.44, Fire Prevention Code, is amended to read as follows:

15.44.170 - Section 6104.2 amended—Maximum capacity within established limits.

Section 6104.2 of the Fire Code is amended by adding the following paragraph at the end of the first paragraph of said section:

The aggregate storage of liquefied petroleum gas at any one installation in excess of five hundred (500) gallons (1893 L) is prohibited in all areas of the City except for the following subareas as identified in the General Plan for the City of Brisbane: Northeast Bayshore, Southeast Bayshore, Crocker Park, Beatty, and the Baylands when the storage container or tank is located at least 200 (two hundred) feet from the closest property line of a property occupied by a residence or school. Notwithstanding the foregoing, the Fire Marshal may grant a permit for such storage in other areas of the City if the Fire Marshal determines, in each case, that the storage is required for the conduct of a lawful use upon the property, will not constitute a safety hazard, and will otherwise comply with all applicable provisions of this Code and all other ordinances, rules and regulations of the City. The Fire Marshal may impose such conditions and requirements upon the issuance of the permit as the Fire Marshal deems necessary or appropriate.

SECTION 25: Section 15.44.175 is added to Chapter 15.44, Fire Prevention Code, to read as follows:

15.44.175 – Section 914.3.8 added – Firefighter breathing air replenishment system.

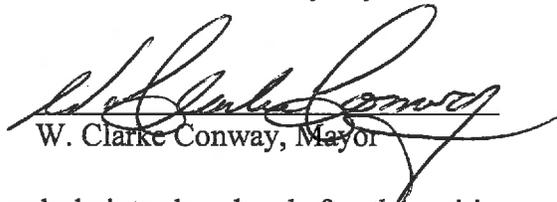

Section 914 of the Fire Code is amended by adding the following paragraph:

Section 914.3.8 Firefighter breathing air replenishment system. All Group B and Group R occupancies, each having floors used for human occupancy located more than seventy-five feet (75') above the lowest level of fire department vehicular access, shall be equipped with an approved rescue air replenishment system. Such a system shall provide an adequate pressurized fresh air supply through a permanent piping system for the replenishment of portable life sustaining air equipment carried by fire department, rescue, and other personnel in the performance of their duties. Location and specifications or access stations to, and the installation of, such air replenishment systems shall be in accordance with the requirements of the fire chief.

SECTION 26: Except for the specific sections amended by this Ordinance, all other sections set forth in Chapter 15.44 of the Municipal Code shall remain in full force and effect and shall constitute amendments to the 2012 Edition of the International Fire Code and the 2013 Edition of the California Fire Code.

SECTION 27: If any section, subsection, sentence, clause or phrase of this Ordinance is for any reason held by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this Ordinance. The City Council of the City of Brisbane hereby declares that it would have passed this Ordinance and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that one or more sections, subsections, sentences, clauses or phrases may be held invalid or unconstitutional.

SECTION 28: This Ordinance shall be in full force and effect thirty days after its passage and adoption.

W. Clarke Conway, Mayor

The above and foregoing Ordinance was regularly introduced and after the waiting time required by law, was thereafter passed and adopted at a regular meeting of the City Council of the City of Brisbane held on the 19th day of May, 2014, by the following vote:

AYES: Councilmembers Lentz, Liu, Miller, O'Connell, and Mayor Conway

NOES: None

ABSENT: None

ABSTAIN: None
