I/We (do)(do not) agree with:

The Agency proposed modifications As Submitted on Section No. 11B-703.4.2

and request that this section or reference provision be recommended:

Approved Disapproved Held for Further Study Approved as Amended

by the reviewing Code Advisory Committee.

Suggested Revisions to the Text of the Regulations:

Reason: [The reason should be concise if the request is for "Disapproval," "Further Study," or "Approve As Amend" and identify at least one of the 9-point criteria (following) of Health and Safety Code §18930.]

Current language contains requirements for the location of permanent identification signs and exits signs. While scoping for exit signage is within chapter 10, elimination of the current code within chapter 11B would eliminate provisions for room identification signs. The public interest requires the continued adoption of the current building standards.
