**Subject:** EV Charging stations

**Please accept these comments on the HCD's proposed code change**

**4.106.4.2.1: The proposed code change discriminates against people with disabilities because it does not provide the necessary standards that insure that persons with disabilities can use electric vehicle charging stations. Without the requirements for signage, accessible route and van parking loading zone requirements, this proposed code change insures that people with disabilities will be discriminated against in charging station construction.**

**This is illegal and immoral; why would you want to do it?**
