RE: Proposed amendments to the California Plumbing Code under 45 day comment period, relative to adopting the 2009 Uniform Plumbing Code by reference into the 2010 California Plumbing Code

Dear Mr. Walls,

CALPASC is a non-profit trade association of specialty contractors, suppliers, and affiliates in construction. We have approximately 425 members, who employ approximately 75,000 working Californians.

CALPASC supports the proposal to amend the Plumbing Code to allow CPVC materials in construction activities under OSHPD (Office of Statewide Health Planning and Development). Those constructing buildings in California should have the same choices of safe materials that are available in other states.

Sincerely,

A handwritten signature in black ink that reads "Bruce Wick". The signature is written in a cursive, slightly slanted style.
