December 7, 2009

Mr. David Walls, Executive Director  
California Building Standards Commission  
2525 Natomas Park Drive, Suite 130  
Sacramento, CA 95833

Dear Mr Walls:

Vivico LLC, a member of the Fire Vents Safety Association, would like to thank the OSFM and CBSC for the time and consideration given to the code language suggestions made through our association's input. We are in agreement with the new language and find that it maintains the strength of the current building code in regards to eave vents.

We are looking forward to continue our work and cooperation with OSFM.

  
Tom Carlson
