

**UPDATED INFORMATIVE DIGEST
FOR
PROPOSED BUILDING STANDARDS
OF THE
DIVISION OF THE STATE ARCHITECT - STRUCTURAL SAFETY**

**REGARDING THE 2010 CALIFORNIA ELECTRICAL CODE
CALIFORNIA CODE OF REGULATIONS, TITLE 24, PART 3**

The Division of the State Architect (Structural Safety) finds that no revisions have been made that would warrant a change to the informative digest contained in the Notice for Title 24, Part 3.

Summary of Existing Laws

Section 16023 of the Health & Safety Code authorizes the State Architect to establish building electrical system standards for state-owned or state-leased essential services buildings. Sections 17310 and 81142 of the Education Code authorize the State Architect to establish building electrical system standards for public elementary and secondary schools, and community colleges.

Summary of Existing Regulations

Building electrical system design, construction and inspection standards for state-owned or state-leased essential services buildings, public elementary and secondary schools, and community colleges are promulgated by the Division of the State Architect-Structural Safety. These regulations are contained in Part 3 of Title 24, also known as the California Electrical Code.

Summary of Effect of the Proposed Regulations

The proposed action will repeal the currently adopted model code, the 2005 edition National Electrical Code, published by the National Fire Protection Association, Inc. (NFPA). The proposed action will adopt the 2008 edition National Electrical Code, published by NFPA for effectiveness as the next California Electrical Code.

Comparable Federal Statute or Regulations

There are no comparable federal regulations or statutes.
