To All State of California Primary Energy Notification Contacts

ENERGY CONSERVATION

Consistent with Governor Schwarzenegger's Executive Order S-12-04, the Department of General Services (DGS) has established a goal of significantly reducing energy consumption in our buildings. We have distributed the attached information throughout the DGS.

We are sharing this information with our Primary Energy Notification contacts, in the hopes you will share this information with appropriate personnel in your organization.

If Government can lead the state in energy conservation, we can reduce the potential of Energy Alerts and energy disruption. We will all benefit through increased comfort, increased safety and increased economic benefits.

Ron Joseph
Director
