

Advisory Committee Members Green Business Operations Certificate Program

The Green Operations Certificate Program's Advisory Committee members represent education, the varied sectors of local industry, government at all levels, and professional associations. Members of the committee represent the leadership level within their own organizations. They play a role in setting strategic direction and priorities for their organizations and they specify goals, strategy, staffing, contingency plans, and allocation of available resources (included budget allocations) within their organization and/or functional area.

The members are:
