1. Introduction

FAMS is a project sponsored by the State of California Department of General Services (DGS). The purpose of FAMS is to provide a method for analyzing and reporting upon vehicular assets owned by California state agencies. The information collected is used to support information requests from the state legislature and to prepare reports for the federal government.

This document serves as a data dictionary for the Vehicle Fuel Data File. This file format should be used to submit fueling data for fueling stations maintained by state agencies.

1.1. Fuel Transactions

Fueling data will be required for all state Ground Equipment. This data will permit analysis of fuel economy, CO2 emissions and other issues that are important to the state. Fuel consumption data will be collected from two sources.

1.1.1. Voyager Fleet Systems

On a regularly scheduled basis, Voyager Fleet Systems will provide FAMS with a data file containing all purchases made by state agencies using the Voyager Fleet Credit Cards.

1.1.2. State Agency Fueling Stations

State agencies that operate fueling stations will provide a periodic data file. This file will provide information about the fuel and services that are provided by each fueling station.

2. Instructions For Use

2.1. File Format

Fuel data for state-owned fueling stations will be submitted in a pipe-delimited text file. File formatting details are as follows:

- Each row in the file represents one fueling transaction.
- Data elements must be separated by a "pipe" or "vertical bar" (ASCII 124).
- Each row must be terminated by a Carriage Return character (ASCII 13) and a Line Feed character (ASCII – 10)
- Data elements should not have leading or trailing spaces.

An example of data submitted in this format is included in Appendix E – Example Data File Contents. A sample file can be downloaded at https://famsportal.dgs.ca.gov

2.2. Frequency

Fueling data should be submitted on a monthly basis. The submission period will be open during the first week of each month for the fueling data of the prior month. For the sake of statistical analysis across all state agencies, data should be submitted as close to the end of each month as possible.

2.3. File Name

FAMS _<AgencyKey>_<MonthEnding>_FuelData.dat

<agencykey></agencykey>	Abbreviation for the reporting state agency (See Appendix
	A of this document). This should be the same as the code
	used for the attribute listed in Section 4.2 below.
<monthending></monthending>	Represents the month ending period that is being reported
	upon. This is formatted as CCYYMM where CCYY
	represents the four digit year and MM is the two digit
	month value.

• Example – FAMS_DGS_200803_FuelData.dat

2.4. Data Corrections

2.4.1. Prior Month Data

All prior period data modifications must be coordinated through the Department of General Services.

2.4.2. Current Month Data

Current month data is to be submitted to the FAMS Portal site no later than the 15th of each month. For example, June data should be uploaded to the FAMS Portal no later than July 15th. Corrections to the most recent period's can be made by submitting a replacement dat file.

3. Submission Instructions

3.1. How Send Data File To FAMS

The Dat file must be submitted to FAMS through the FAMS portal website located at https://famsportal.dgs.ca.gov/. You must have a user account to login to the FAMS portal website. Please contact the DGS Office of Fleet and Asset Management to request an account. Please refer to the FAMS Portal user guide for specific instructions on how to upload the dat file.

4. Data Element Definitions

Please provide complete and accurate information. <u>All data elements are important</u> to ensure the validity of the reports provided to the state legislature and the federal government.

- Certain fields are <u>required</u>. FAMS tracks vehicle information for three vehicle categories Ground Equipment, Water Equipment and Aircraft. Monthly Vehicle Usage Summary data
 should <u>only be submitted for Ground Equipment</u>. For Ground Equipment, please refer to each
 element's definition below for details.
- For *non-required* elements, please use a blank cell or enter "N/A". Entering a zero in a numeric field will be interpreted by the system as an affirmative entry of zero.

4.1. Position 1 – Transaction Date

Description	Date of fueling transaction.

Required?	Required
Format	date (MM/DD/CCYY)
Valid Values	Example - 03/07/2007, 03/31/2007

4.2. Position 2 – Source System Transaction Id

Description	Unique key that links record back to database record within source database of agency that maintains Fueling Station.
Required?	Required
Format	alphanumeric (20)
Valid Values	(No predefined format.)

4.3. Position 3 – Fueling Station Agency Key

Description	Code used to identify state agency that operates fueling station.
Required?	Required
Format	alphanumeric (10)
Valid Values	See Appendix A – Agency Key

4.4. Position 4 – Fueling Station Key

Description	Fueling station where fueling transaction took place.
Required?	Required
Format	alphanumeric (15)
Valid Values	See Appendix B - Fueling Station. Example – DGS-001

4.5. Position 5 – Vehicle Agency Key

Description	Code used to identify state agency to which vehicle belongs.
Required?	Required
Format	alphanumeric (10)
Valid Values	See Appendix A – Agency Key

4.6. Position 6 – Agency Vehicle Equipment Number

Description	Unique alphanumeric code assigned and used by that state agency to identify an asset. Code is assigned by state agency that owns/leases/rents vehicle and must be used for life of asset.
Required?	Required
Format	alphanumeric (25)
Valid Values	Assigned by agency

4.7. Position 7 – Fuel Type Key

Description	Fuel type provided to vehicle.
Required?	Required
Format	Alphanumeric (3)
Valid Values	See Appendix C – Fuel Type

4.8. Position 8 - Fuel Quantity

Description Quantity of fuel provided to vehicle rounded to the nearest whole number.	
---	--

Required?	Required
Format	Numeric (integer)
Valid Values	Example – 15, 10, 125

4.9. Position 9 – Unit Of Measure Key

Description	Unit of measure for amount reported in the field "Position 8 – Fuel Quantity".
Required?	Required
Format	Alphanumeric (3)
Valid Values	See Appendix D – Unit Of Measure

4.10. Position 10 - Total Fuel Cost

Description	Total cost of fuel provided to vehicle.
Required?	Required
Format	Numeric (integer)
Valid Values	Example – 120, 36, 3635

4.11. Position 11 – Odometer

Description	Odometer reading for vehicle at time of transaction.
Required?	Either an "Odometer" or "Hours Used Meter" reading is required.
Format	Numeric (integer)
Valid Values	Example - 1236, 100524

4.12. Position 12 – Hours Used Meter

Description	Hours Used meter reading for vehicle at time of transaction.
Required?	Either an "Odometer" or "Hours Used Meter" reading is required.
Format	Numeric (integer)
Valid Values	Example - 1236, 100524
