Why Travel **Green**?

By traveling green, pollution and waste are reduced. This in turn helps to create a more healthy environment for all Californians, present and future. Taking a green approach to travel is an easy and essential way to protect the places we must visit to conduct business on behalf of the State of California.

It is critical that we act responsibly and protect the future by promoting Green Travel to our State employees. You are invited to attend this one-day conference and trade show and learn what the airlines, rental car agencies, travel agencies, and accommodations are doing to help all Californians Travel Green.

Who Should Attend

This free educational event is for all employees that work for the State of California, California cities and counties, California universities, colleges and community colleges, and the Superior Courts system. The conference is designed to benefit those who travel – managers, supervisors, and staff who work in the following offices – Fiscal, Accounting, Business Services, Contracts, Travel Coordination, Transportation, Training, and Meeting and Conference Planning.
