

ATTACHMENT 5
International City-Pair
Bid Submission Form
IFB DGS DOM INT AIR 2004

Fares provided will be for one-way air travel between cities of a city pair in either direction on any of the contractor's flights between the contracted city pair at the Y-CAL fare, and provide the authorized state traveler with the same services provided to the general public in unrestricted scheduled coach service.

For **International** city-pairs, preference will be given to airlines that offer:

- I. A minimum of one (1) non-stop flight in each direction scheduled daily.
- II. Flight connections or through-flight stopovers that do not exceed more than three (3) hours.

However, the state reserves the right to evaluate an offer based on best value to the state that does not meet the above preferences.

Once this sheet is signed, all fare and flight information provided by the bidder, in this attachment, becomes binding.

All flights within a contract city-pair that meet solicited minimum flight time standards will be made available to the State of California travelers, not merely the minimum flights required by the IFB.

No bids will be accepted unless this sheet is signed.
