

## **New Health Insurance Marketplace Coverage Options and Your Health Coverage Notice**

### **PART A: General Information**

When key parts of the health care law take effect in 2014, there will be a new way to buy health insurance: the Health Insurance Marketplace. To assist you as you evaluate options for you and your family, this notice provides some basic information about the new Marketplace and employment based health coverage offered by your employer. Receipt of this notice does not confirm you are eligible for health coverage by your employer. Please refer to Part B below and to your departmental Human Resources Officers for eligibility requirements.

### **What is the Health Insurance Marketplace?**

The Marketplace is designed to help you find health insurance that meets your needs and fits your budget. The Marketplace in California is known as "Covered California." Covered California offers "one-stop shopping" to find and compare private health insurance options. You may also be eligible for a new kind of tax credit that lowers your monthly premium right away. Open enrollment for health insurance coverage through Covered California begins in October 2013, for coverage starting as early as January 1, 2014.

### **Can I Save Money on my Health Insurance Premiums in the Marketplace?**

You may qualify to save money and lower your monthly premium, but only if your employer does not offer coverage, or offers coverage that doesn't meet certain standards. The savings on your premium that you're eligible for depends on your household income.

### **Does Employer Health Coverage Affect Eligibility for Premium Savings through the Marketplace?**

Yes. If you have an offer of health coverage from your employer that meets certain standards, you will not be eligible for a tax credit through Covered California and may wish to enroll in your employer's health plan. However, you may be eligible for a tax credit that lowers your monthly premium or a reduction in certain cost-sharing if your employer does not offer coverage to you at all or does not offer coverage that meets certain standards. If the cost of a plan from your employer that would cover you (and not any other members of your family) is more than 9.5% of your household income for the year, or if the coverage your

employer provides does not meet the "minimum value" standard set by the Affordable Care Act, you may be eligible for a tax credit.

Note: If you purchase health coverage through Covered California instead of accepting health coverage offered by your employer, you may lose the employer contribution (if any) towards the employer-offered coverage. Also, the employer contribution as well as your employee contribution towards the employer-offered coverage is often excluded from income for Federal and State income tax purposes. Your payments for coverage through Covered California are made on an after-tax basis.

This coverage meets the minimum value standard and the cost of this coverage to you is intended to be affordable based upon employment wages. However, even though we intend your coverage to be affordable, you may still be eligible for a premium discount through Covered California. Covered California will use your household income, along with other factors, to determine whether you may be eligible for a premium discount. If, for example, your wages vary from week to week (perhaps you are an hourly employee), if you are newly employed mid-year or if you have other income losses, you may still qualify for a premium discount.

If you do decide to shop for coverage through Covered California, you will need the employer information to determine if you are eligible for a premium tax credit to lower your monthly premiums.

Please contact Covered California directly at (888) 975-1142 with questions regarding the Health Insurance Marketplace. Please contact your departmental Human Resources Office for clarification on information contained in this memorandum.
