

Final Round of Funding Approved for Career Technical Education Facilities Program

By Lina Lyda

At its October 6, 2010 meeting, the State Allocation Board approved the final funding round for the Career Technical Education Facilities Program (CTEFP). In this third funding cycle, **unfunded approvals** were authorized for 77 projects, totaling nearly \$93.7 million. In total, the CTEFP has contributed \$500 million to 502 career technical education projects statewide.

School districts that received an apportionment under the second funding cycle of the CTEFP must submit a detailed construction cost estimate that indicates all planning, construction, and site development costs based on the final Division of the State Architect (DSA) and California Department of Education (CDE) approved plans and specifications for each project to the Office of Public School Construction (OPSC) by December 10, 2010.

To complete the OPSC project submittal, districts must submit one or all of the following documents (depending on the scope of the project) to the OPSC:

- Plan Approval Letter from the CDE School Facilities Planning Division
- DSA-approved Plans and Specifications and DSA Plan Approval Letter
- Detailed construction cost estimate
- Itemized list of equipment, including costs

For questions regarding the CTEFP, please contact:
