

The Jack Tygett Performing Arts Center, home of the School for the Creative and Performing Arts (SCPA) on the Chula Vista High School campus opened in December 2010. The facility is part of a \$20-million renovation for the campus being built with voter-approved Proposition O funding.

The 25,729-square-foot Jack Tygett Performing Arts Center is a 680-seat theater complete with stage lighting and a professional sound system. It also houses dressing rooms and specially-designed rehearsal rooms for band, choir, dance, orchestra, and mariachi classes. Other class offerings include drama performance as well

as music theory and stage production and sound techniques.

The SCPA is the only magnet program of its kind in the district. It has been recognized four times as a "Grammy Signature School" for excellence in the arts, a distinction no other school in the country has earned.

Modernization

State Funds: \$5.79 million
Funding Approved: January 2010
Funding Received: December 2010

Career Technical Education

State Funds: \$3.0 million
Funding Approved: December 2008
Funding Received: Septemebr 2009

Office of Public School Construction
STAFF TO THE STATE ALLOCATION BOARD

Additional improvements to the campus include a gymnasium remodel, upgrades to the boys and girls adaptive physical education buildings and locker rooms, and a new library, equipped with computer stations and study area.

Not only do the projects create a better environment for student learning, but all construction follows environmentally-friendly building designs and practices. All landscaping is water efficient, relying on drought-resistant and native plants.

The Chula Vista High buildings were designed to increase natural and high-efficiency lighting. Rooms were equipped with monitors to track energy usage and air quality. The renovations were designed to meet gold-level certification from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) rating system.
