

# AB 1014 WORKSHOPS

## CHANGES TO THE ENROLLMENT PROJECTIONS FOR SCHOOL FACILITIES PROGRAM (SFP) NEW CONSTRUCTION FUNDING ELIGIBILITY

### Introduction

The Office of Public School Construction (OPSC) will be conducting informational workshops at various locations throughout California to provide interested parties helpful information regarding changes to the School Facilities Program (SFP) as a result of the passage of Assembly Bill (AB) 1014. AB 1014 authorizes the State Allocation Board (SAB) to modify the enrollment projection calculation method used to establish eligibility for new construction funding under the provisions of the SFP. AB 1014 allows for the following additional components:

1. Modified weighting mechanisms;
2. Birth rate augmentation to kindergarten and first grade enrollment;
3. Tenth-year projection; and,
4. Utilization of pupil residence for High School Attendance Area (HSAA) reporting.

The Workshops will prepare school districts for utilizing these new options and filing new construction eligibility requests on a revised Enrollment Certification/Projection (Form SAB 50-01).

### WHO SHOULD ATTEND?

1. District Representatives,
2. Superintendents
3. County Office of Education Personnel
4. Facility Planners
5. Educational Personnel
6. School Project Consultants

#### ▪ **September 9, 2008**
