DIVISION OF THE STATE ARCHITECT

In a series of 2010 **Town Hall Meetings** all over California both the **Division of the State Architect** and the **Office of Public School Construction** have listened to school facilities specialists, explained evolving changes to processes and practices, and provided an opportunity to share suggestions and ideas with all stakeholders.

Now we want to explain how we will incorporate the best suggestions into our proposed response to address the issues facing all of us.

Please join us either in person in Sacramento, or via webcast...
