Contract (Mandatory): 1-07-56-10

SCOPE/CONTRACT PERIOD:

This contract covers the estimated twenty month (20) requirements of the State of California, Department of Transportation, for DE-ICING SAND OR CINDERS (DELIVERED) as specified by location. The product offered must comply with the DOT Specification(s) No. 5610-0000-0001SC for either A, A1, A2, B, C, D, or G. In addition, the contract contains an option for one (1) contract extension period. The terms, conditions, and prices for the contract extension option shall be by mutual agreement between the awarded supplier and the State. If a mutual agreement cannot be met, the contract may be terminated at the end of the current contract term and/or contract extension.

EXTRAORDINARY EXTENSION OPTION:

In the event of an extraordinary circumstance the State may extend the contract for up to an additional year beyond the stated term and any noted extensions. Extensions during this period MAY occur in increments until the establishment of a new contract (not to exceed one-year). Exercise of this may occur in the event that a replacement contract cannot be established due to the protest of intent to award, or loss of key procurement staff, or extraordinary circumstance that would otherwise cause an unanticipated disruption in the contracting process.

If necessary, prices may be increased during an extraordinary extension option period, to the extent that price is determined by the State to be "fair and reasonable". Requests for price increase(s) shall include substantiated information to support the proposed increase (e.g., manufacturer's price list, significant changes in published market indicators for the industry, certified raw material cost data, and any other substantiating information as requested by the State). In no event will price increases be accepted with retroactive effective dates.

If the delivery is rejected, the supplier shall incur the cost of replacing the product and/or delivery.

PRICE:

Unless escalation is requested, all prices quoted for material costs shall be fixed as the Maximum cost for the entire contract term, including any contract extension(s).

PRICE ESCALATION-MATERIAL COSTS AND FUEL COSTS:

Material Costs:

If requested, the contractor may submit a notice of proposed price escalation, in writing (for other than fuel costs, see Fuel Costs below), to the Department of General Services, Procurement Division, no earlier than three hundred sixty-five (365) calendar days after award. Such notice shall include substantiated information to support the proposed escalation (e.g., manufacturer's price list, significant changes in published market indicators for the industry, certified raw material cost data and any other substantiating information as requested by the State.). The State shall determine what constitutes substantiating documentation.

Upon receipt of such notice, the State reserves the right to exercise the following options:

1. Accept the escalation as competitive with the general market price at that time, effective no more than forty-five (45) calendar days after receipt of an acceptable notice; or the State may choose to
2. Negotiate a proposed price escalation. Note: The State will notify the contractor in writing of its intention to negotiate. The State shall have (20) working days to complete negotiations; or the State may
3. Cancel any unpurchased balance of the contract without prejudice, effective upon written notice from the State.

Note: If negotiations fail to produce any agreement, the State reserves the right to exercise either option 1 or 3 with an effective date no later than ten (10) working days after unsuccessful negotiation.

No price increase shall apply to quantities ordered from the contract prior to the effective date of the price escalation as authorized by the State via an approved supplement to the contract.

Any accepted price escalation increase shall be fixed as the maximum price for a period of not less than three hundred sixty-five (365) calendar days from the effective date of the approved price escalation as described above, and/or through the date of contract termination or contract extension(s), whichever is less.

Contract (Mandatory): 1-07-56-10

Fuel Costs:

Unless escalation is requested, all prices quoted for fuel cost shall be fixed as the maximum cost for the contract term, including any contract extension(s).

If requested, the contractor may submit proposed escalation notice for fuel costs, in writing, to the Procurement Division Contract Administrator when the cost of fuel has increased no less than ten percent (10%) from the original fuel cost and after one hundred eighty (180) calendar days from the effective date of the contract or from the effective date of the most recent price increase for fuel costs. Such notice shall include substantiated information to support the proposed escalation from the published OPIS (Oil Price Information Service), the market indicator for the fuel industry. The OPIS Sacramento Market Base will be used to determine the escalation of fuel cost. The Department of General Services, Procurement Division tracks and monitors such fuel changes at the following website:
www.pd.dgs.ca.gov/contracts/fuelrates.

Upon receipt of such notice, the State reserves the right to exercise the following options:

1. Accept the escalation as competitive with the general market price at that time, effective no more than forty-five (45) calendar days after receipt of an acceptable notice; or the State may choose to
2. Negotiate a proposed price escalation. Note: The State will notify the contractor in writing of its intention to negotiate. The State will have (20) working days to complete negotiations; or the State may
3. Cancel any unpurchased balance of the contract without prejudice, effective upon written notice from the State.

Note: If negotiations fail to produce any agreement, the State reserves the right to exercise either option 1 or 3 with an effective date no later than ten (10) working days after unsuccessful negotiation.

No price increase shall apply to quantities ordered from the contract prior to the effective date of the price escalation as authorized by the State via an approved supplement to the contract.

Any accepted price escalation increase shall be fixed as the maximum price for a period of not less than one hundred eighty (180) calendar days from the effective date of the approved price escalation as described above, and/or through the date of contract termination or contract extension(s), whichever is less.

The actual purchases may vary from these amounts due to climatic conditions which will affect usage. Emergency purchases may be made off-contract. The estimated quantities are based upon historical purchasing. The State will not guarantee that these quantities will be purchased. The State will not be obligated to procure any Contractor's excess inventories of any item if actual acquisitions vary from the anticipated purchasing pattern. The State reserves the right to order more or less of any line item on this contract. There is no limit to the number of orders that may be placed by DOT, and DOT may place orders as frequently as required.
