The State may purchase these items from other than the contractor in the event of an emergency.

6. PRICE VERIFICATION

The State reserves the right to conduct price verification on a periodic basis. These price verifications will be made to determine that contract prices are accurate and have been determined in accordance with solicitation and distributor's standard commercial method or pricing. If the supplier identified overcharges, a report containing the following must also be included:

In addition to the above requirements, the supplier shall establish an audit trail for the verification of all contracts pricing until 1 year after final payment under this contract. This should include – but is not limited to – all data pertaining to the product prices and how they are determined (e.g. average monthly invoice, last invoice, replacement cost, etc.), application of the distribution prices by category, and actual transportation costs. The State shall maintain the right to examine and audit all of the supplier's books, records, documents and other data, regardless of form or type. The supplier shall disclose their standard commercial methods of determining prices (e.g. average monthly invoice, last invoice, replacement cost, etc.). This standard commercial method of determining prices shall be utilized throughout the life of the contract unless written authorization to deviate is provided by the contracting official.

7. MODIFICATION OF CONTRACT

Delivery sites may be added or deleted as deemed necessary by DGS' Procurement Division.

At the discretion of the State, any contract may be modified in whole or in part upon mutual agreement of both parties. Such modifications shall be in writing, signed and dated by an authorized representative of each party.

8. EMERGENCY EXTENSION OPTION

In the event of an emergency, the State upon mutual agreement with the contractor may extend the contract for up to one (1) additional year beyond the stated term and any noted extensions. Extensions during this period may occur in various increments until the establishment of a new contract (the total of the Emergency extension(s) terms shall not exceed one (1) additional year). All original Terms and Conditions shall remain the same during the extensions. Emergency Extension option may be exercised in the event that a replacement contract cannot be established due to the protest of Intent to Award, loss of key State procurement staff, or other circumstance that would otherwise cause an unanticipated disruption in the State contracting process.
