**RE: Public Comment Forum for Information Technology Procurement Authority
Workgroup Survey of the IT Procurement Process**

This Broadcast Bulletin announces a public comment forum to respond to the Information Technology Procurement Authority Workgroup (ITPAW) Survey about the current IT procurement process.

The Information Technology Procurement Authority Workgroup has been charged by the Administration with determining where IT procurement authority should rest within the Administration. The Workgroup conducted a wide ranging survey which was sent to various government stakeholders, vendors, and other members of the IT community to provide input on the current state of procurement programs and procedures. This meeting is an extension of the survey effort designed to allow for additional verbal input on the survey questions.

The forum will be held at the DGS Ziggurat Auditorium on October 30, 2012, starting at 1 p.m. Attendees should be prepared to discuss their opinions about the survey questions.

Please contact Patrick Mullen, Manager, Office of Policies, Procedures and Legislation, Procurement Division, Department of General Services, at 916-375-4617 for questions regarding this meeting.
