

# CERTIFICATION OF STRUCTURAL EVALUATION

Preparer is currently licensed as a structural engineer, and certifies that the structure located at \_\_\_\_\_ has been evaluated for compliance with one of the two options below:

1.  Seismic performance level as set forth in FEMA 178
2.  Seismic performance level is equivalent to at least 75% of the current California Building Code.

The results of this evaluation show that the subject facility  does  does not meet the above referenced selected performance objectives.

Documentation of the selected performance level evaluation will be retained by the preparer and shall be available to the State upon request.
