

COST ENGINEERING SECTION

PROGRAM SUMMARY, RESOURCES, AND CONTACTS

1324

(Revised 06/05)

The Cost Engineering Section provides the project managers and project team members with information and support to help them to complete projects within budget and on schedule and to provide project status information to client agencies and management. It focuses on all aspects of cost control for the PSB. Services provided by the Cost Engineering Section include project estimating and budgeting, project scheduling, and cost analysis.
