

SAM – INFORMATION TECHNOLOGY
(California Technology Agency)

STATE INFORMATION MANAGEMENT AUTHORITY AND RESPONSIBILITY
(Revised 03/11)

4819.3

Pursuant to Government Code Sections 11545 and 11546, the Secretary of California Technology is charged with the duty to advise the Governor on the strategic management and direction of the state's information technology resources. In addition to this advisory role, the Technology Agency is responsible for: establishing, maintaining, and enforcing the State's IT strategic plans, policies, standards procedures, and enterprise architecture; approval and oversight of IT projects; consulting with agencies during initial project planning; and suspending, reinstating, or terminating IT projects.
