REVISION RECORD
FOR THE STATE OF CALIFORNIA

EMERGENCY SUPPLEMENT

Effective January 30, 2017
2016 Title 24, Part 2, Vol. 1
California Building Code

General Information:
1. This supplement provides emergency building standards that were adopted by the Building Standards Commission on January 27, 2017, filed with Secretary of State, and became effective January 30, 2017. The Building Standards Commission issued Information Bulletin 17-01 announcing the emergency regulations.

   Clarification: Emergency building standards become effective upon filing with Secretary of State after commission adoption. They remain in place and enforceable for only 180 days, pursuant to Government Code, Sections 11346.2 to 11347.3. For the emergency building standards to become a permanent adoption, the state agency initiating the emergency adoption must complete the required rulemaking process before the 180-day expiration date. The required process includes an opportunity for the public to review and comment on the initially adopted regulatory language of the building standard.

2. This Emergency Supplement provides new or replacement blue supplement pages with building standards approved by the California Building Standards Commission on an emergency basis for insertion in the California Code of Regulations, Title 24, Part 2, Vol. 1, of the 2016 California Building Standards Code. Existing Part 2 pages should be replaced by pages provided with this supplement. Instructions are provided below.

3. Health and Safety Code, Section 18938.5, establishes that only building standards in effect at the time of the application for a building permit may be applied to the project plans and construction. This rule applies to both adoptions of building standards for Title 24 by the California Building Standards Commission, and local adoptions and ordinances imposing building standards.

4. Not all code text on the enclosed blue Emergency Supplement pages is a new or amended building standard. New, amended, or repealed building standards are identified by margin symbols. An explanation of margin symbols is provided in the front of the code.

5. You may wish to retain the superseded material with this revision record so that the prior wording of any section can be easily ascertained.
