

## CALGreen Online Courses

The Architects Institute of America California Council (AIACC) offers CALGreen online courses to help members of the design and construction industry get up to speed on both the requirements and implementation strategies - providing real world strategies to comply with the mandatory provisions of CALGreen.

### **The new CA green building code takes effect Jan 1 – are you ready?**

**Beginning** January 1, 2011, all newly constructed residential, commercial, school and hospital buildings must comply with new California Green Building Codes.

These three courses are designed as convenient learning opportunities that serve to expand the professional knowledge of practitioners. And, as a bonus, these courses allow you to earn up to 4 AIA/CES HSW/SD learning units.

Visit [www.aiacc.org](http://www.aiacc.org) for more information or to access the courses.

## **AIACC Sustainability Course #101: CALGreen 101**

Presented by: Dave Walls, Executive Director, California Building Standards Commission

AIA/CES Learning Units: 1 AIA/CES HSW/SD LU

This course, presented by Dave Walls, Executive Director of the California Building Standards Commission, provides an introduction to CALGreen. It provides insight into the state's code development process, and the state agencies authorized to develop building standards. Walls explains how CALGreen fits within Title 24 and describes the code development process. Walls also provides an overview of the code layout and how local jurisdictions play a role in improving the impact of CALGreen.

This course qualifies for 1 hour of approved AIA continuing education credit (SD/HSW credit).

Fee: \$25 for AIA members  
\$40 for non-members

## **AIACC Sustainability Course #102: CALGreen 2010 Non-Residential Measures: An Overview for Architects and Other California Building Industry Professionals**

Presented by: Lynn N. Simon, FAIA, LEED AP ®, BD+C and William J. Worthen, LEED AP ®, BD+C, Simon & Associates, Inc.

AIA/CES Learning Units: 1 ½ AIA/CES HSW/SD LUs

This course provides a basic understanding of the new state green building code, Title 24 Part 11 "CALGreen" for non-residential projects. Topics covered include the evolution of Green Building in California, implications for architectural practice, an overview of all the CALGreen Non-Residential mandatory measures (Chapter 5), and a brief summary of CALGreen Non-Residential voluntary Tier 1 and 2 standards.

For architects familiar with green building principles or existing rating systems, the course clarifies what CALGreen requires within those areas including new requirements for indoor and outdoor water conservation, construction waste management, low-emitting materials, building commissioning. For architects new to green practice, the course highlights practical and achievable green strategies that will allow you to understand and design with the new code requirements.

This course qualifies for 1.5 hours of approved AIA continuing education credits (SD/HSW credits).

Fee: \$40 for AIA members  
\$60 for non-members

## **AIACC Sustainability Course #103: CALGreen 2010 Residential Measures: An Overview for Architects and Other California Building Industry Professionals**

Presented by: Lynn N. Simon, FAIA, LEED AP ®, BD+C and William J. Worthen, LEED AP ®, BD+C, Simon & Associates, Inc.

AIA/CES Learning Units: 1 ½ AIA/CES HSW/SD LUs

This course provides a basic understanding of the new state green building code, Title 24 Part 11 "CALGreen" for residential projects. Topics covered include the evolution of Green Building in California, implications for architectural practice, an overview of all the CALGreen Residential mandatory measures (Chapter 4), and a brief summary of CALGreen Residential voluntary Tier 1 and 2 standards.

For architects familiar with green building principles or existing rating systems, the course clarifies what CALGreen requires within those areas including new requirements for indoor and outdoor water conservation, construction waste management and low-emitting materials. For architects new to green practice, the course highlights practical and achievable green strategies that will allow you to understand and design with the new code requirements.

This course qualifies for 1.5 hours of approved AIA continuing education credit (HSW credit) and complies with California licensure requirements regarding accessibility (SB 1608 requirement).

Fee: \$40 for AIA members  
\$60 for non-members
