Subject: Greywater Plumbing Code

Dear Mr. Walls,

My name is Geraldine Rayca, and I live in San Francisco, California and I am writing to tell you I am very pleased with the new greywater plumbing code for our State. I think the no-permit requirement for washing machine and single fixture systems is a very important aspect of the code and will allow me to install a greywater system when I remodel the bathroom and kitchen. Also, this will make this a more economical solution for us as we have almost a 1/4 acre of gardens to water. I do hope this part of the code remains intact during the public comment period and I really appreciate the direction of removing barriers for permits and fees for the installation of simple but sustainable practices.

Sincerely,
Geraldine Rayca
