Incumbents will be responsible for reviewing code changes and their justifications submitted by state agencies for adoption by the Commission. The product of the review will be a recommendation to the Commission as to the action to be taken on each code change submittal. The recommended action shall be to approve, approve-as-amended, disapprove, or further study. The recommended action must also include a reason, which shall be based upon whether the proposed code change is justified in terms of criteria specified in Health and Safety Code Section 18930. The criteria are as follows:

1. The proposed building standards does/do not conflict with, overlap, or duplicate other building standards.
2. The proposed building standard is/is not within the parameter established by enabling legislation and is not expressly within the exclusive jurisdiction of another agency.
3. The public interest does/does not require the adoption of the building standards.
4. The proposed building standard is/is not unreasonable, arbitrary, unfair or capricious, in whole or in part.
5. The cost to the public is/is not reasonable based on the overall benefit to be derived

from the building standards.

6. The proposed building standard is/is not unnecessarily ambiguous or vague, in whole or in part.
7. The applicable national specification, published standards, and model codes have/have not been incorporated therein as provided in this part, where applicable.
 - If a national specification, published standards, or model code does not adequately address the goals of the state agency, a statement defining the inadequacy shall accompany the proposed building standards when submitted to the Commission.
 - If there is not national specification, public standard, or model code that is relevant to the proposed building standard, the state agency shall prepare a statement informing the Commission and submit a statement with the proposed building standard.
8. The format of the proposed building standards is/is not consistent with that adopted by the Commission.
9. The proposed building standard, if it promotes fire and panic safety, as determined by the State Fire Marshal, has/has not the written approval of the State Fire Marshal.
