Subject: Comment related to HCD 05/12 - 2012 Uniform Plumbing Code (UPC), Part 5

Mr. McGowan,
Please accept this comment related to the Department of Housing and Community Developments (HCD) proposed changes to the California Plumbing Code during the 15 day comment period dated October 23, 2012 through November 6, 2012.

HCD proposed changes to Chapter 2, Section 220, the definition for "Rainwater Catchment Systems" and Chapter 17, Section 1702.9.3, "Collection Surfaces". As discussed in the rationale submitted with the proposed 15 day revisions, our understanding was that these revisions were necessary to remain consistent with recent legislation which amended the Water Code. After further review we have determined the language HCD proposed for these sections during the 45 day comment period is accurate and does not require modification.

Thank you

Doug Hensel
Assistant Deputy Director
California Department of
Housing and Community Development
Division of Codes and Standards
