INFORMATIVE DIGEST

Summary of Existing Laws

Health and Safety Code Section 1226 authorizes the Office to prescribe, in consultation with the Community Clinics Advisory Committee, minimum building standards for the physical plant of clinics, for adoption in the California Building Standards Code.

Health and Safety Code Section 1275 authorizes the Office to adopt and enforce building standards for the physical plant of health facilities including hospitals, skilled nursing facilities and correctional treatment centers.

Health and Safety Code Section 18928 authorizes state agencies to adopt the most recent edition of model code, as amended or proposed to be amended by the agency, within one year of the publication date of that model code.

Health and Safety Code Section 18929 mandates that building standards or administrative regulations that directly apply to the implementation or enforcement of building standards must be submitted by the adopting agency to the California Building Standards Commission for the Commission's approval and must be adopted pursuant to Health and Safety Code Section 18930 and the Government Code (commencing with Section 11346).

Alquist Hospital Facilities Seismic Safety Act. The Office is also authorized to submit to the California Building Standards Commission for approval and adoption of building standards related to the seismic safety of hospital buildings.

Government Code Section 11152.5 authorizes a state department to adopt regulations pursuant to the Government Code. Regulations which are building standards must be adopted pursuant to State Building Standards Law of the Health and Safety Code (commencing with 18901).

Summary of Existing Regulations

OSHPD currently enforces the California Code of Regulations, Title 24, Part 5, 2010 California Plumbing Code which is based on the 2009 Uniform Plumbing Code with California amendments. OSHPD enforces requirements related to the construction of hospitals, skilled nursing facilities, licensed clinics and correctional treatment centers.

Summary of Effect

The proposed action is to adopt the 2012 Uniform Plumbing Code for incorporation, by reference, into the 2013 California Plumbing Code and to carry forward existing California amendments related to hospitals, skilled nursing facilities, licensed clinics and correctional treatment centers and to make minor editorial and technical modifications for clarification and consistency within the code. In addition, the proposed regulations create a new classification of OSHPD 3SE to specify OSHPD 3 clinics that can be granted special exemptions from existing code requirements. This brings the requirements for OSHPD 3SE clinics closer to those of less-restrictive model code, and will result in lower construction and maintenance costs.

Comparable Federal Statute or Regulations

There is no federal statute or regulations related to this proposed action.

- reduce the number of toilet rooms required for small (three, or fewer, exam rooms) clinics by one,
- eliminate the requirement for redundant domestic hot water systems,
- allow the use of ABS and PVC for sanitary drainage piping.

The table below identifies estimated reduced construction costs for each amendment that will result in savings.

CPC 2010 Code Section	Description of Amendment	Estimated Savings
412.3.1	Reduction in quantity of required toilet rooms for small clinics.	\$40,000/clinic
609.9	Elimination of the requirement for OSHPD-specific domestic water disinfection procedures.	\$1,400/clinic
612.0	Elimination of OSHPD-specific hot water system requirements.	\$9,000/clinic
