INFORMATIVE DIGEST

(Government Code Section 11346.5(a)(3))

Summary of Existing Laws

- Health and Safety Code Section 18930 states any building standard adopted or proposed by state agencies shall be submitted to, and approved or adopted by, the California Building Standards Commission prior to codification. Building standards adopted by state agencies and submitted to the commission for approval shall be accompanied by an analysis written by the adopting agency or state agency that proposes the building standards which shall, to the satisfaction of the Building Standards Commission, justify the approval thereof in terms of criteria for costs and benefits.
- Section 18949.1 of the Health and Safety Code states that any responsibilities of the State Architect to adopt regulations relating to building standards are hereby transferred to the California Building Standards Commission.
- Section 4450 of the Government Code authorizes the State Architect to establish building standards for making buildings, structures, sidewalks, curbs, and related facilities accessible to and usable by persons with disabilities.
- Section 4454 of the Government Code requires the Department of General Services' review and approval of building projects utilizing state funds (including public school and community colleges) to ensure compliance with accessibility standards. Section 4454 also authorizes the Department to collect a filing fee for the services and include the cost of carrying out the responsibilities for development of building standards as part of the plan review costs in determining fees.

Summary of Existing Regulations

- Existing administrative standards allow the Division of the State Architect (DSA) to collect fees as a percentage of the estimated construction costs for projects submitted for plan review.
- Section 5-104 of Title 24, Part 1, directs the DSA to conduct a review of the fee schedule in 2011 and within every four years thereafter. Upon review of the fee schedule, DSA may reduce the fees or propose a fee schedule increase.

Summary of Effect

The proposed regulatory action will result in a revised fee schedule for projects submitted to the DSA for review and approval of compliance with accessibility standards pursuant to Government Code section 4454(d). The fees are based on percentage of the estimated costs of construction projects submitted for plan review.
