Subject: HCD EVC amendments

Hello:

In response to The California Building Standards Commission (CBSC) on behalf of the Department of Housing and Community Development (HCD) for providing notice of amendments made to proposed regulations, Sections 4.106.4.2.1 and 4.106.4.2.2, which previously were the subject of both a 15-day public comment period ending on June 26, 2014, and a 45-day public comment period ending June 9, 2014, it seems inappropriate to dedicate this size of access aisle for EV vehicles. Full size EV Vans are not feasible due to weight and not available.

Additionally, the dimensions for disabled access SHOULD NOT be placed in the Green Building Code, but should be located in Chapter 11A.

Thank you.
