Subject: Greywater

Hi Dave Walls,

I am a landscape architect, Glenn Rogers, ASLA, and live in San Francisco, CA 94132. I am thrilled with the new relaxed code present in the State of California greywater code, especially the portion allowing simple systems to be installed without permits. We need this to be an easier process to save water, not a more difficult process. Now, more than ever, Californians need to conserve water, this new greywater code is just what California needs.
