Subject: public comment on new greywater code

Dear Dave Walls,

My name is, Howdy Goudey, and I live in El Cerrito, CA. I am very pleased with the new greywater code for the state of California. The ability to install washing machine and single fixture greywater systems without a permit is a very important aspect of the new code. This will make simple greywater systems economical for Californians seeking to conserve water. The 12 requirements for the no-permit systems will protect environmental and public health, while supporting greywater reuse.

Please keep that part of the code intact and continue in this direction of removing barriers of permits and fees for simple sustainable practices.

Sincerely,
Howdy Goudey
El Cerrito, CA
