Email: Dave Walls

Dear Dave Walls,

My name is Jan Dederick, and I live in \_El Cerrito (East Bay) I am very pleased with the new greywater code for the state of California, and think the no-permit requirement for washing machine and single fixture systems is a very important aspect of the code. This will make simple greywater systems economical for Californians seeking to conserve water. The 12 requirements for the no-permit systems will protect environmental and public health, while supporting greywater reuse. It gives me great excitement and hope that our government has responded to actual needs and desires of actual concerned individuals without consideration for profiteers. A breath of fresh air. And what a welcome song, the gurgle washing machine water coming into the garden! Thank you.

Please keep that part of the code intact and continue in this direction of removing barriers of permits and fees for simple sustainable practices.

Sincerely,  
Jan Dederick
