Sacramento, California 95833

Dear Dave Walls,

My name is Neelam Sharma and I live in Los Angeles.

I am very pleased with the new grey water code for the state of California, and think the no-permit requirement for washing machine and single fixture systems is a very important aspect of the code.

This will make simple grey water systems economical for Californians seeking to conserve water. The 12 requirements for the no-permit systems will protect environmental and public health, while supporting grey water reuse.

Please keep that part of the code intact and continue in this direction of removing barriers of permits and fees for simple sustainable practices.

Sincerely,

Neelam Sharma
