

**UPDATED INFORMATIVE DIGEST  
FOR  
PROPOSED BUILDING STANDARDS  
OF THE  
CALIFORNIA STATE LANDS COMMISSION**

**REGARDING AMENDMENTS TO THE 2007 CALIFORNIA CODE OF REGULATIONS,  
TITLE 24, PART 2, CALIFORNIA BUILDING CODE  
CHAPTER 31F, MARINE OIL TERMINALS**

The California State Lands Commission (CSLC) finds that no revisions have been made which would warrant a change to the Informative Digest contained in the Notice for Proposed Amendments to the 2007, California Code of Regulations, Title 24, Part 2, California Building Code, Chapter 31F, Marine Oil Terminals.

**Summary of the Immediately Preceding Laws and Regulations**

The immediately preceding regulations are the 2007 California Code of Regulations (CCR), Title 24, Part 2, California Building Code, Chapter 31F, Marine Oil Terminals.

As under Section 6111 of the Public Resources Code (PRC), the CSLC is not to adopt building standards directly. In accordance with instructions from the California Building Standards Commission staff, the CSLC is therefore promulgating the proposed Amendments to the 2007 California Code of Regulations (CCR), Title 24, Part 2, California Building Code, Chapter 31F, Marine Oil Terminals.

PRC Section 8755 states, in part, "...the commission shall adopt, rules, regulations, guidelines, and commission leasing policies for reviewing the location, type, character, performance standards, size, and operation of all existing and proposed marine terminals within the state, whether or not on lands leased from the commission, and all other marine facilities on lands under lease from the commission to minimize the possibilities of a discharge of oil. Rules, regulations, and guidelines adopted by the commission shall not conflict with regulations of the administrator or the Coast Guard. The commission shall ensure that the rules, regulations, guidelines, and commission lease covenants provide the best achievable protection of public health and safety and the environment..."

The CSLC has determined that the proposed amendments to the standards will enhance these mandates.

**Summary of Existing Regulations**

The 2007 California Code of Regulations (CCR), Title 24, Part 2, California Building Code, Chapter 31F, Marine Oil Terminals are the only regulations relating to the engineering analysis, design, rehabilitation, inspection, or maintenance of marine oil terminals.

**Summary of Effect**

*Cost or savings to any state agency:* None

*Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630:* None

*Other non-discretionary costs or savings imposed on local agencies:* None

*Cost or savings in federal funding to the state:* None
