

## STATE RECORDS SPECIAL AUTHORIZATION

DGS SRC 50 (REV. 06/2018)

### INSTRUCTIONS

#### WHEN TO USE THIS FORM

**Change in Agency or Disposal Date:** This form is to be used when records are transferred from one agency to another, or when disposition schedules have been revised to reflect a destruction date change (i.e.: extended retention due to litigation or audit).

**Reference Requests that Will not be Returned to the State Records Center (SRC):** This form is to be used instead of the Std. 76, State Records Center Reference Request, when entire Transfer Lists, are requested for return to the agency and will not be returned to the SRC. If records are not to be returned to the SRC, an agency is expected to review and update their Records Retention Schedule (RRS) accordingly. Any records flagged for the State Archives must be transferred at the end of the retention period. Notify the State Archives regarding format changes (i.e.: paper to electronic) to records flagged by the State Archives. If an agency needs to pull a partial list of boxes, and those boxes will not be returned to the SRC, please contact SRC staff. SRC staff may require a new transfer list for the remaining boxes.
