Signature: _____

Project Inspector (Print Name): _____

FORM DSA 999 INSTRUCTIONS

This *DSA 999: Inspection Verified Report for Projects Exempt from DSA Approval* form may be used to satisfy the verified reporting requirements of Title 24, Part 1, section 4-309 only for work that is exempt from DSA approval. The instructions below explain how the form should be completed and how it may be modified for unusual situations.

It is the intent of the code that all inspections be performed by one specific individual; if more than one individual performed inspections on the same project each individual must describe, on a separate DSA-999 form, the specific portions of the project which he or she inspected.

Any inspection indicating that work did not comply with the plans and specifications must be reported on this form by filling out statement #3 to describe the circumstances. All reports indicating that material or workmanship was non-compliant shall be listed on this form, statement #3, and copies of all such reports shall be attached. Acceptance letters from the design professional and/or any other documents pertinent to the noncompliance reports shall also be attached when available.
