

TREES MAKE A SIGNIFICANT CONTRIBUTION

A TREE HAS MANY USES IN ITS LONG LIFE. AT THE CAL FIRE STATION IN NEVADA CITY, THE TREES WERE USED FOR SPECIAL PURPOSES THAT CONTRIBUTED TO OUR LOCAL COMMUNITY.

TREES WERE TAKEN TO WASHINGTON RIDGE CONSERVATION CAMP FOR MILLING AS PART OF A WORK PROGRAM.

SAWDUST CREATED FROM MILLING WAS USED AS MULCH FOR THE ON-SITE ORGANIC VEGETABLE GARDEN. CAL FIRE AND STAFF FROM THE DEPARTMENT OF CORRECTIONS AND REHABILITATION (CDCR) CONTINUE TO ENJOY THE FRUITS OF THEIR LABOR DAILY IN THEIR CAFETERIA.

LEFTOVER LUMBER SCRAPS ARE USED BY CDCR INMATES FOR OUTDOOR WARMTH DURING WINTER MONTHS.

TREES WERE MILLED SPECIFICALLY FOR USE IN FIRE SUPPRESSION TRAINING BY MEMBERS OF CAL FIRE.

CAL FIRE CONSTRUCTED OVERHANGS AND STRUCTURES USING THE LUMBER.

TREES WERE USED IN THEIR ENTIRETY TO CREATE STRUCTURES AND ENRICH LIVES IN MANY WAYS.
