

LEED AP+ O&M Training Opportunity – Spring 2009

Course Description

- LEED AP+ O&M credential signifies an extraordinary depth of knowledge in green building practices and specialization in a particular field. The Professional Accreditation Operations & Maintenance course is a thorough training in green building practices and the LEED O&M Rating System.
 - This rating system updates and replaces the LEED-EBOM (for Existing Buildings Operation & Maintenance) v2008 rating system, and launches April 27, 2009.
-

Goals

- Obtain knowledge and skills required to pass the USGBC LEED AP+ O&M Practitioner Test. For details regarding this credential please follow this link: [LEED AP+ O&M.](#)
 - Gain the knowledge required to assist project teams in achieving the LEED O&M certification for buildings managed and owned by the State.
 - Equip attendees with the knowledge to help address and achieve the State of California's GHG emission reduction programs & green building initiatives.
-

Requirements

- Attendance at each training session
 - Complete regular reading assignments and homework
 - LEED EB Certification project experience
(If attendee does not currently have project experience, DGS can pair candidates with buildings that are currently in the certification process)
-

Course Schedule

Location:	Auditorium, East End Complex 1500 Capitol Avenue, Building 172 Sacramento, CA 95814
Time:	8:00 AM to 11:00 AM each day
