To: Daily Fueling Services Users

From: Evan Speer, Chief
Office of Fleet and Asset Management
Department of General Services

Subject: Discontinuation of Fueling Services at the State Garage in Sacramento

The Department of General Services (DGS) has announced the elimination of the daily rental service currently being offered through the State Garage in Sacramento. Due to the elimination of daily rentals, the necessity and staffing provision for onsite fueling stations will no longer be supported.

Daily rental services are being discontinued due to rising operational costs and the availability of more efficient, cost-effective ways of obtaining these services, and to meet the parking needs of state employees in the downtown Sacramento area. The State Garage currently houses the state's daily rental fleet as well as monthly state parkers. In early 2018, the State Garage will be reconfigured for use entirely as a parking facility.

In preparation for elimination of fueling services, E-85 and unleaded gasoline fueling services for external state agencies will be discontinued as of December 29, 2017. The remaining supply of fuel will be used to refuel daily rental vehicles until the supply is exhausted. Once exhausted, the fuel pumps will be decommissioned.

The following website provides locations and prices for E-85 Ethanol stations in Sacramento: <http://www.altfuelprices.com/stations/E85/California/Sacramento/>. The closest alternate location for E-85 fuel is Propel Fuel at 8090 Folsom Blvd., Sacramento, CA 95826.

Thank you for your cooperation during this transition. If you have any questions, please contact Tasha Wilson, Garage Operations Manager at (916) 653-5373 or Paul Romero, Assistant Chief at (916) 928-2519.
